EXPERIENCE

- **7EDGE**
  Software Engineer Intern   *November 2024 - March 2025*
    - Implemented AWS serverless solutions involving storing and retrieving images from Amazon S3 and processing structured table data to generate PDF documents using AWS Lambda.
    - Proficient in relational databases, MongoDB fundamentals, and serverless architectures.
    - Certified AWS Cloud Practitioner (CLF-C02), with hands-on experience in implementing foundational cloud.

PROJECTS

- **Food Ordering Web Application using Java, JDBC, and JEE**
    - Built a full-stack food delivery web application using Java, JDBC, and JEE (Servlets & JSP) following MVC and DAO design patterns.
    - Implemented core functionalities including user authentication, restaurant & menu management, cart operations, and order processing with session handling.
    - Integrated MySQL for persistent data storage and performed database operations using JDBC.
    - Technologies: Java, JDBC, JEE, Servlets, JSP, DAO, MVC, MySQL, HTML, CSS

- **Bangalore News - News Website**:
    - Developed a dynamic news website to provide users with real-time news updates.
    - Integrated news APIs to fetch and display the latest news content, ensuring up-to-date information.
    - Utilized Git for version control, ensuring client collaboration and code management.
    - Tech Stack : HTML, CSS, JavaScript and Open Source API.

TECHNICAL SKILLS

- **Programming Languages**: Java
- **Web Development**: HTML, CSS, JavaScript, JDBC, JSP
- **Tools / Platforms** : VS Code, IntelliJ IDEA, Eclipse, Git and GitHub
- **Databases**: MySQL
- **Additional Skills**: Data Structures Algorithms(basics), Object Oriented Programming, Database Management Systems,Analytical and Problem-Solving Skills

ACHIEVEMENTS

- Solved 200+ Data Structures and Algorithm Questions across different Coding Platforms.
- Solved 170+ Coding Questions on Leetcode.
- Achieved 5 Star in Java - HackerRank
- Successfully cleared the AWS Certified Cloud Practitioner (CLF-C02) examination

CERTIFICATES

- AWS Certified Cloud Practioner (CLF-02)
- Introduction to Front-End Development - Coursera
- Full Stack Web Development - Varcons Technologies

EDUCATION

- **AMC Engineering College**   Bengaluru, KA, India
  B.E in Computer Science; CGPA: 7.5   *Dec. 2020 – May. 2024*
